Favourite Person in IPS: All of them! We're like a family and I'm proud to be a part of it

**ANEST
IWATA**

Anest Iwata 3KW Infra-Red Unit

The average cost of a spray bake is **£25.00** with a 30 minute bake, this is not economical when repairing a small area. The average cost of an Infra-Red Dry with an Anest Iwata Infra-Red Unit is **25 pence** and takes 12 minutes.

This saves your time and your money whilst increasing your profitability.

Talk to IPS about how the Anest Iwata Infra-Red Unit can help your business.

Special Offers

PROXL GENERATION 20 DEGREASER

This product is a special degreaser and panelwipe that effectively cuts through contaminants prior to painting. It is carefully formulated to avoid any attack on existing paint films and can be used over bare metal and or existing paint surfaces. Available in slow & fast evaporation times.

5 LITRE TIN @ £12.66+VAT

SPECTRAL GLAZE POUCH

Spectral Glaze is a Novol product with very good customer feedback. This putty contains modern light nanofilters, and delivers a smooth and self-levelling surface. This product is pinhole-free, and easy to use as the colour changes as polymerisation proceeds. Superb sanding without edge between putty & sheet metal.

880ML POUCH £18.40+VAT

SIA ONE SANDING DISCS

SiaOne 1944 Abrasive Discs 150mm diameter. An affordable 15 hole, hook and loop attached disc, with Aluminium Oxide grit bonded to a flexible paper. SiaOne offers coarser grits in P40, and P60 when you need an aggressive value for money abrasive. Initial cut is excellent, and the discs are low cost. Boxes of 50 Discs

**£7.40 +VAT EACH or
2 for £5.62 +VAT Each**

FARECLA G360 COMPOUND

G360 Super Fast Compound used with a G Mop Super High Cut Pad easily glides over the surface and eliminates P1500 sanding marks, cutting rapidly and with little effort. This removes the need for P3000 abrasive discs, saving time and money. Transparent in use, the operator is able to see these marks disappear permanently.

1 LITRE BOTTLE @ £28.19+VAT

OCTORAL 2K CLEARCOAT MATT/SATIN KIT

Independent Paint Supplies have created this essential bodyshop Matt & Satin Clearcoat kit. This kit provides you with the option of several different gloss levels, which is easily selected by the Octoral Gloss Level Swatch. Perfect for Octoral Colour Scheme Users

Product Information

MIPA CC9 HS 2K 7.5L CLEARCOAT KIT

Mipa CC9 is a new product to IPS- a high-solid acrylic clear coat, VOC compliant. This product is perfect for both complete coating or for spot repairs of cars and commercial vehicles. Delivering a high gloss and optimal flow for clear-over-base applications for water-borne and solvent-borne paints. Provides an optimal full hardness by stoving and also by drying at room temperature. A high quality Mipa Product producing a high quality finish.

Q1 PERFORMANCE TAPE

An easy to position, flexible sponge foam with premium-grade adhesive, Q1® Performance Foam Tape is the ideal masking solution for reducing masking time around doors, tailgates and other vehicle access points. Simply apply to the inner surface of an open door for example and adjust the product once the door is closed. Designed to mask all apertures and prevent the ingress of paint during spraying. Because the adhesive is offset it will never come into contact with the paint or clear coat during application, giving a feathered finish, with no build-up of hard edges. The quick, performance-engineered solution to seal openings, Performance Foam Tape from Q1® is an advanced product for automotive refinishers looking for a professional result every time.

3M DISPOSABLE HALF MASK

3M™ Maintenance Free Half Mask Respirator 06941 is a simple and ready-to-use respirator with an integrated cartridge and filters. A newly enhanced valve assembly helps to reduce exhalation breathing resistance, and the close-fitting, non-silicone, textured face seal is soft and non-allergenic. Includes a resealable bag for hygienic storage and transportation.

Product Information

NEW

MIRKA PAINT CUP SYSTEM- 3M PPS ALTERNATIVE

The Mirka® Paint cup system is a complete paint cup system, ready to be attached to the spray gun. The set includes 50 liners and lids with a 125µm filter, 20 stoppers, one outer hard cup and one collar. All parts are corrosion-resistant to both paint and thinner.

BULK PURCHASE DEALS!

PROXL POLYURETHANE SEALER

Ultra PU is a high quality 1K product used in motor vehicle repair, an ideal body sealer as well as many other applications. An easily applied product that is quick to extrude and tool up. The Polyurethane Sealant has a fast paint over time and due to a unique formula does not bubble on cure unlike other PU Sealers.

Available in black, grey & white

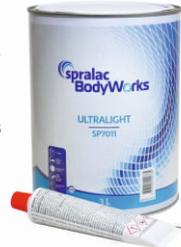

- Suitable for internal and external sealing
- UV resistant Polyurethane sealant
- Better consistency

Buy 2 @ £15.34 Each

UNIVERSAL 2K ACTIVATOR

Profix 2K Activator is our best selling universal 2K Activator. The universal 2K Activator can be used in numerous different products, from primers to clearcoats and more! This product comes in medium or fast speeds, and is canned in 2.5L tins.

PROFIX

Buy 1 @ £24.55
Buy 2 @ £23.32 Each

Customer Feedback

South Wales Kitchens have sent us some images of a contract job that they recently finished for a customer, making a complete transformation of this kitchen.

Joel & the team offer a kitchen refurb service, revamping the original units and doors using Mipa PMI 2K Paint to refresh kitchens with modern day colours and themes.

As you can see, they get very impressive results which speak for themselves.

Well done guys, keep up the good work!

Q1® DOUBLE SIDED SANDING SPONGES

Q1® Double Sided Sanding Sponges use cutting-edge technology to combine three grits on each pad. This offers an innovative working experience during manual sanding. With three different grits on each pad for a smoother abrasion, the Q1® Double Sided Sanding Sponges can be used on wet or dry surfaces, enabling professionals to use just one pad for the entire sanding process to save time on site. The 13mm foam construction of these new sponges moulds perfectly to the hand and has been specifically designed for hard-to-reach areas, curved surfaces or corners. Q1® sanding sponges come in three different colours according to the grade of abrasion – making them easily distinguishable during the sanding process.

Q1

Fine (P320-P500)- Brown
Super Fine (P600-P1000)- Green
Micro Fine (P1000-P1500)- Violet
